

**Chammas & Marcheteau advises Teampact Ventures on
RainPath's fundraising (AI/Deeptech/Healthcare)**

Chammas & Marcheteau advised Teampact Ventures, a fund dedicated to impact-driven projects in the fields of climate and health, in connection with the €2.5 million funding round of RainPath, alongside Xplore II (managed by Épopée Gestion), The Quest, Advans Lab, Sharpstone, and business angels.

Founded in 2025, RainPath develops a virtual staining technology powered by artificial intelligence, enabling pathology labs to visualize biopsies without traditional chemical staining and thus deliver faster, more accurate diagnoses accessible to a greater number of patients.

This funding will enable RainPath to accelerate product development and clinical validation, expand its team, and roll out its solution across Europe.

The **Chammas & Marcheteau** team consisted of **Lola Chammas** (partner) and **Arys Serdjanian** (associate).
