**Chammas & Marcheteau** advised Epopée Gestion, through its Infrastructure and Climate funds, on the €25 million fundraising completed by SunLib, with the shared objective of supporting the energy transition and the development of renewable energies across local territories.

Founded in 2024, SunLib develops a turnkey solar subscription offering enabling access to photovoltaic energy without any upfront investment, relying on a broad network of independent local installers certified RGE (Reconnu Garant de l'Environnement/QualiPV).

This fundraising will enable SunLib to finance the installation for thousands of new subscribers as from 2026, while also benefiting the local network of installers.
