

**Chammas & Marcheteau advises Creadev on its
acquisition of a majority stake in the FCA - Fertilux group (Soil health)**

Chammas & Marcheteau advised Creadev on its acquisition of a majority stake in the FCA - Fertilux group through a LBO, alongside the group's founder and CEO, Pascal Tronçon.

Founded 35 years ago and generating more than €60 million in annual revenue, the FCA - Fertilux group is a leading French company specializing in the design, manufacture and distribution of sustainable fertilizers dedicated to plant nutrition and soil health. Operating in nearly 20 countries, the group supports more than 6,000 farmers with solutions that promote more productive and sustainable agriculture.

This transaction is fully aligned with Creadev's strategy of supporting high-potential companies operating in sectors with long-term structural impact. It will enable the FCA - Fertilux group to accelerate its commercial expansion in France and internationally, further develop its industrial platform and pursue a targeted buy-and-build strategy with the ambition of becoming a European leader in soil health.

The **Chammas & Marcheteau** team consisted of **Lola Chammas** (partner), **Julien Delacroix** and **Bradley Alet** (associates) on the transactional aspects, **Christophe Moreau** (partner) and **Frank Hallel** (associate) on the tax structuring aspects, and **Pierre Rougemond** (associate) on the debt financing aspects.

Our **Corporate, Tax, Intellectual Property, Real Estate and Employment** teams were involved in the due diligence work.
